

Agri-Mitra

Your Personal Farming Advisor

Clear advice, in your language

Sayash Raaj

IIT Madras

Why should a farmer's success depend on guesswork?

Every day, millions of Indian farmers face critical questions alone.

-  **Language Barriers:** Advice is rarely in their native tongue.
-  **Digital Hurdles:** Complex apps don't work for everyone.
-  **Poor Connectivity:** Slow internet makes most tools useless.

The result is uncertainty, risk, and lost income.

Welcome to AgriSathi!

सिंचाई, फसल, मौसम या खेती की सलाह के बारे में पूछें...

सिंचाई, फसल, मौसम या खेती की सलाह

Introducing Agri-Mitra.

We deliver **simple, trustworthy, and instant** agricultural advice.

It's a personal advisor that understands the farmer's **exact location,**

local season, and native language.

(Step 1) ASK in Your Language

- Type or simply use your voice to ask a question in Hindi, Tamil, Telugu, Marathi, or English.

(Step 2) GET a Local Answer

- Agri-Mitra instantly knows your location and the date to give hyper-relevant advice.

(Step 3) TRUST the Advice

- Our answers are based on expert knowledge from agricultural universities and government advisories—no AI guesswork.

Works for Everyone Our app is built for low-literacy users with full voice support.

Speaks Your Language True multilingual support breaks down communication barriers.

Works Everywhere Designed to be lightweight and fast, even on slow, rural internet connections.

100% Reliable We use a curated expert knowledge base, so our advice is always accurate and trustworthy. No "AI hallucinations."

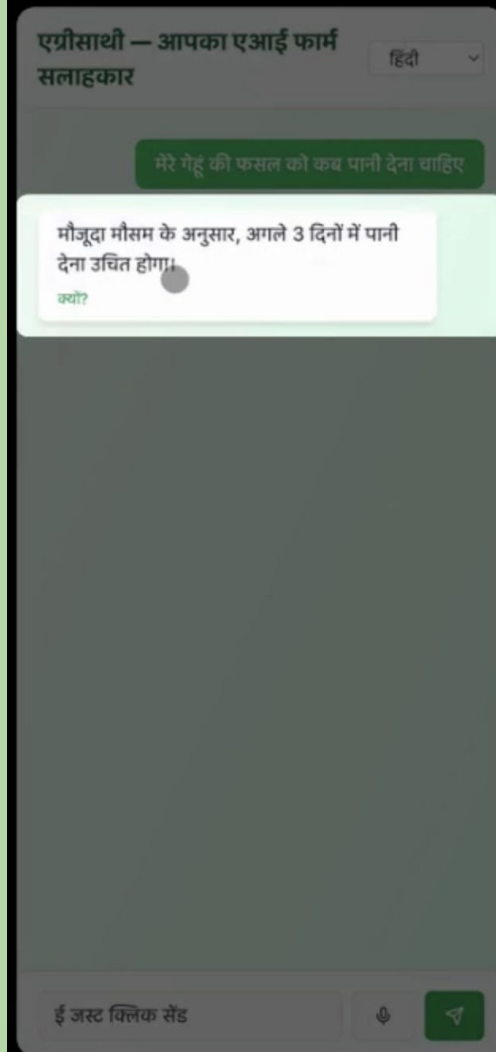

गेहूं की फसल को कब पानी देना चाहिए

From Guesswork to Confidence.

- **EMPOWER FARMERS:** Putting expert knowledge directly into the hands of millions.
- **INCREASE INCOME:** Helping make better decisions that boost crop yields and profitability.
- **BRIDGE THE DIVIDE:** Connecting every farmer to the information they deserve, regardless

of language or location.

Our journey is just beginning.

- **More Languages:** Expanding our reach across India.
- **Live Data:** Integrating real-time market prices and weather alerts.
- **Community Platform:** Connecting farmers to share knowledge and success.
